Gauri Joshi

M.Des-Intelligent User Experience Design

gaurijoshi@dau.ac.in linkedin.com/in/gaurijoshi portfolio.com/gaurijoshi

Professional Summary

UX Designer pursuing an M.Des in Intelligent User Experience Design with experience designing research-driven digital products across healthcare, public services, conversational AI, and information design. Skilled in UX research, interaction design, wireframing, prototyping, and design systems. Passionate about transforming complex problems into intuitive user experiences through user-centered design and evidence-based decision making.

Education

Dhirubhai Ambani University 2025 - Present
***CPI**: 7.49* *Gandhinagar, Gujarat*

Navrachna University 2020 - 2024
***CPI**: 7.44* *Vadodara, Gujarat*

Experience

Altum Infotech Jun 2026 – Present
UX Designer *Remote*

- Designed user-centered digital experiences for a live orthopedic healthcare website and an AI-powered children's storytelling application from concept to high-fidelity prototypes.
- Created user flows, wireframes, and design systems to improve usability, accessibility, and overall user experience across web and mobile platforms.
- Designed 50+ responsive screens in Figma, collaborating with stakeholders and developers to translate business requirements into production-ready interfaces.
- Iterated designs based on client feedback through multiple review cycles, ensuring consistency, scalability, and adherence to modern UX best practices.

Projects

SAARTHI – Public Service Experience Platform | *UX Research, Service Design, Product Design, Figma*

- Conducted 17 user interviews, 8 field visits, and synthesized insights into actionable design opportunities.
- Designed a mobile platform simplifying public service journeys through structured information architecture, user flows, and high-fidelity prototypes.

Birds of Gujarat – Interactive Information Website | *Information Design, UX Design, Framer*

- Designed and developed an interactive storytelling website in Framer, transforming complex educational content into an engaging digital experience, information architecture, and scroll-based interactions.
- Created intuitive navigation, visual hierarchy, and motion-driven interactions to enhance content discovery and user engagement across devices.

Context-Aware Payment Chatbot Redesign | *UX Design, Interaction Design, Figma*

- Redesigned a digital payment chatbot by introducing context-aware conversational flows to improve user reassurance during refund-related interactions.
- Mapped user journeys, identified friction points, and designed adaptive conversation patterns based on system confidence and user context.
- Built interactive high-fidelity prototypes validating refund discovery, failure handling, and reassurance-focused user experiences.

Technical Skills
